Subject: RE: DRAFT Dangerous Goods code [SEC=OFFICIAL]

You don't often get email from paul@riaa.com.au. [Learn why this is important](#)

OFFICIAL

Dear Matt,

What format do you require our Industry Association feedback? Is this email sufficient?

If so, can you please send back acknowledgement.

The Roadmarking Industry Association of Australia strongly opposes the removal of SP AU01.

The proposed associated changes have the potential to adversely impact elements of the distribution, logistics, and administration chain.

In the opinion of the RIAA, the proposed changes product distribution to the where there are adverse outcomes for end users, in our case, road users (which clearly, is the entire community).

The RIAA further supports the continued retention of clause 3.3 relating to SP668 "Road marking materials".

The RIAA awaits your response and will communicate further with you as needed,

Yours sincerely,

Paul Robinson
